# Shivaji University, Kolhapur Bachelor of Computer Applications (BCA) **Draft CBCS Course Structure to be Implemented From Academic Year 2024-25 Syllabus as per AICTE Model Curriculum**

#### 1. Introduction:

**Bachelor of Computer Application** (4years) program / degree is a specialized program in Computer Applications. It builds the student on studies in applied use of computers and to become competent in the current race and development of new computational era.

The duration of the study is of eight semesters, which is completed in four years. The program is based on Choice-Based Credit System (CBCS) comprising 176 credit points and intake for one batch is as per AICTE Norms. (i.e.60)

#### 2. Objective:

BCA offers the prequalification for professionals heading for smart career in the IT field, which measures up to international standards. On completing this course one can do higher studies such as MCA, MBA etc., in any UGC recognized universities or in any other reputed institution in India or abroad.

**3. Eligibility:** Candidate should have passed standard XII (10+2) in any stream or government approved equivalent diploma in Engineering/ Technology from any recognized Board or Vocational stream.

A candidate who has completed qualifying qualification from any Foreign Board /University must obtain an equivalence certificate from Association of Indian Universities (AIU) or competent body in India.

Students should appear CET of CET Cell Govt . of Maharashtra and admissions will be done as per CET Process conducted by CET Cell Govt of Maharashta.

#### 4. PEO, PO and CO Mappings:

**Program Educational Outcomes**: After completion of this program, the graduates /students would:

		Implement	fundamental domain
PEO I	Technical	knowledge	of core courses for
	Expertise	developing	effective computing
		solutions by	incorporating creativity and
		logical reaso	oning.
PEOII	Successful Career	Deliver pr updated te application b	ofessional services with chnologies in Computer pasedcareer.

		Develop leadership skills and
	Interdisciplinary	incorporate ethics, team work with
PEO III	and Life	effective communication & time
	Long Learning	management in the profession.
	8	Undergo higher studies, certifications
		and technology research as per market
		needs.

**Program Outcomes (PO's):-** After completion of program Students / graduates will be able to:

**PO1:** Apply knowledge of ICT in solving business problems.

**PO2:** Learn various programming languages and custom software.

**PO3:** Design component, or processes to meet the needs within realistic constraints.

**PO4:** Identify, formulate, and solve problems using computational temperaments.

**PO5:** Comprehend professional and ethical responsibility in computing profession.

**PO6:** Express effective communication skills.

**PO7:** Recognize the need for interdisciplinary, and an ability to engage in life-long learning.

**PO8:** Knowledge of contemporary issues and emerging developments in computing profession.

**PO9:** Utilize the techniques, skills and modern tools, for actual development process.

**Course Outcome(s):** Every individual course under this program has course outcomes (CO). The course outcomes rationally match with program educational objectives. The mapping of PEO, PO and CO is as illustrated below:

Program Educational Objectives	Thrust Area	Program Outcome	Course Outcome
PEO I	Technical Expertise	PO1,PO2, PO3,PO9	SEC101, CC102, CC104, CC105, SEC102, SEC103, CC202, SEC201,CC204, CC207, CC301, MDE401, SEC401, SEC402, SEC403, CC401,CC403, SEC401
PEO II	Successful Career	PO4,PO5, PO6	CC101, AEC101 CC103, CC201, CC203, DSE201, CC205, CC206, DSE301,DSE202,DSE301,DSE302 DSE303, SEC302, SEC303, DSE304, DSE305, SEC304, CC401, DSE401, DSE402, DSE403, DSE404, DSE405, CC402, DSEXX, DSEXX
PEO III	Interdisciplinary and Life Long Learning	PO7,PO8	MDE101, VAC101, AEC102, VAC102, VAC201, SEC202, SEC301, CC302, AEC301

- **5. Workload (Period/Lectures for each Course):** For every semester 60 periods (60 minutes per period) are allotted to complete the syllabus of each Course of four credit.(Subject).
- **6.** Standard of Passing: Rules under the National Education Policy and the rules extended by University regarding ATKT will be applicable

#### **Gradation Chart:**

Marks obtained	Numerical Grade (Grade Point)	CGPA	Letter Grade
Absent	0(Zero)		
<40	0 to 4	0.0 to 3.99	Fail
40-50	5	4.00 to 4.99	С
51-60	6	5.00 to 5.99	В
61-70	7	6.00 to 6.99	B+
71-80	8	7.00 to 7.99	А
81-90	9	8.00 to 8.99	A+
91-100	10	9.00 to 10.00	O(outstanding)

Note: i) Marks obtained > = 0.5 shall be rounded off to next higher digit. ii) The SGPA & CGPA shall be rounded off to 2 decimal points.

#### Calculation of SGPA & CGPA

 Semester Grade Point Average (SGPA) SGPA = Course credits x Grade Points obtained of a semester Course credits of respective semester
 Cumulative Grade Point Average (CGPA) CGPA = Total credits of a semester x SGPA of respective semester of all semesters Total course credits of all semesters.

**7. Re-entry or Lateral Entry:** Students, opting for exits at any level, will have the option to

re- enter the programme as per AICTE New Delhi Guidelines based on intake capacity.

#### Semester, NSQF Level and Exit Points

Sr. No.	Semester	Year	Year	Credits	Level	Exit Points& Award
1	Sem. I & II	2024-25	1 Year	44	4.5	UG Certificate

c) Nature of question paper is as follows for 40 Marks University end semester Examination

#### **QUESTION PAPER PATTERN 40 MARKS** Duration: 2 Hours

Total Marks - 40

Instructions:	1) Que.1 and Que. 6 are compulsory.
	3) Figures to the right indicate marks.

Qu.1) Multiple Choice Questions (10 questions for 1 mark each)	10 MARKS
Qu.2) Broad answer question	10 MARKS
Qu.3) Broad answer question	10 MARKS
Qu.4) Broad answer question	10 MARKS
Qu.5) Broad answer question	10 MARKS
Qu.6) Write notes on (Any TWO out of FOUR)	10 MARKS

d) Nature of question paper is as follows for 30 Marks University end semester Examination QUESTION PAPER PATTERN 30 MARKS

Duration: 1.5 Hour Total Marks – 30 Instructions: 1) All questions are compulsory 2) Figures to the right indicate marks. Qu.1) Broad question/case study/Exercise Example/Quantitative problems 10 MARKS OR Qu. 1) Broad question/case study/Exercise Example/Quantitative problems 10 MARKS Ou.2) Write Short answer question/Exercise/Problem (Any TWO) 10 MARKS i) ii) iii) iv) Qu.3) Write short notes (Any TWO) 10 MARKS i) ii) iii) iv)

#### 9. Nature of Practical Question Paper:

a) Nature of Practical question paper for 50 Marks University end semester Examination-There will be three questions of 15 Marks each, out of which student have to attempt any two Questions and 10 marks for journal and 10 marks for oral and time duration is two hours.

b) Nature of Practical question paper for 25 Marks University end semester Examination-There will be two questions of 15 Marks each, out of which student have to attempt any one Question and 5 marks for journal and 5 marks for oral and time duration is 1.5 hours.

Practical Examination conducted by the University appointed examiner panel. The panel members have more than five years' experience as full time teacher.

10. Medium of Instruction: The medium of instructions shall be in English.

11. Teachers Qualification: As per AICTE Norms.

#### 12. Internal Marks Distribution For 20 Marks:-

- 1 Ten Marks for Mid Tests.
- 2 Five Marks for presentation or activity based learning or Group exercise (Number of students in Group are not more than six).
- 3 Five Marks for Assignments.(The record of internal submission by the students should be maintain by higher educational institute for the examination of university authority if required)

#### For 15 Marks:-

- 1 Five Marks for Mid Tests.
- 2 Five Marks for presentation or activity based learning or Groupexercise (Number of students in Group are not more than six).
- 3 Five Marks for Assignments. (The record of internal submission by the students should be maintain by higher

educational institute for the examination of university authority if required)

#### For 10 Marks:-

- 1 Five Marks for Mid Tests.
- 2 Five Marks for Assignments / presentation or activity based learning/ Group exercise (Number of students in Group are not more than six)/ Laboratory work/ Library work
  (The record of internal submission by the students should be maintain by higher educational institute for the examination of university authority if required)

#### 13. Major Software Development Project/ Internship Project:

The Objective of major project is to design and develop the live application with current technology to be used in various industries. The Group size of maximum three students (or as per guidelines mentioned time to time by the Shivaji University, Kolhapur) can undertake major project. Project Viva-Voce Examination will be conducted by the University appointed examiner panel. The panel members have more than five years' experience as full time teacher. The chairman for viva voce committee will be faculty having more than ten years experience as full time faculty.

#### 14.Fee Structure: As per Govt. of Maharashtra norms.

#### **15. Requirements:**

- i) Core Faculty : As per AICTE Norms
- ii) Computer Lab and Internet: As per AICTE Norms\*
- iii) Library( Books and Journals) : As per AICTE Norms\*
- iv) Class Room and Physical Infrastructure: As per AICTE Norms\*
- v) Nonteaching: One clerk, two peons and two lab assistants for one division and will be increased in proportion to number of divisions.

\*Refer AICTE Process Manual 2024-2

#### Pattern of B.C.A. Programme

Combination of internal assessment and Semester- End Examination for B.C.A will be 80:20,60:15,40/30:10/20 pattern which shall be applicable for each course of 4,3,2,1 credits. Here, each course in each semester wherein 80% marks shall be for University Semester-End-Examination and 20% marks for internal assessment.

Credits	External	Internal	Total
For 4 Credit	80	20	100
For 3 redit	60	15	75
For 2 Credit	40/30	10/20	50
For 2 Credit Practicals	50	-	50

#### 1. Standard of Passing

There would be separate head of passing. For university written examination and institution internal evaluation 40% of total marks separately have to be secured by student per course i.e. Passing Standard = Total Passing 40 % out of 100 ( 40% Theory and 40 % Internal Examination Separately)

#### 2. Weightage

Semester	Core Courses	Ability Enhance ment Courses	Multi-Disciplinary Elective course	Value added Courses	Skill Enhancement courses	Discipline Specific Elec tive	Total
Ι	9	4	2	2	5	-	22
II	12	0	0	2	8	-	22
III	11	0	0	1	4	6	22
IV	14	0	0	0	2	6	22
V	0	0	0	0	7	15	22

VIII					8	14	22
BCA (Honours with Research)							
VII	12					10	22
VIII	22						22

#### **Category wise Distribution**

There shall be Three Year B. C.A. Programme with 132 credits. The candidate who wishes to attempt for Four-Year B.C.A. (Honours/ Research) may opt for 4th year which will have 44 credits. Hence, Four Year B.C.A. Programme will require 176 credits.

#### **Credit Distribution Chart for B.C.A. Programme** SEMESTER-WISE CREDIT DISTRIBUTION

**Category-wise distribution\*** 

Description	Core Courses	Ability Enhancement Courses	Multi Disciplinary Elective course	Value added Courses	Skill Enhancement courses	Discipline Specific Elective	Total
BCA	52	6	2	5	30	37	132
BCA (Hon ours)	57	6	5	5	42	61	176
BCA (Hon ours with Research)	86	6	2	5	30	47	176

3 Years BCA Program	Total Credits = 132
4 Years BCA (Honours)	Total Credits = 176
4 Years BCA (Honours with Research)	Total Credits = 176

Note: Students can take extra credit course from their own department or from other department as per the University norms.

# **INDUCTION PROGRAM**

The Essence and Details of Induction program can also be understood from the 'Detailed Guide on Student Induction program', as available on AICTE Portal, (Link:<u>https://www.aicteindia.org/sites/default/files/De-tailed%20Guide%20on%20Student%20Induction%20program.pdf</u>). For more, Refer

#### AICTE Model syllabus.

Induction program	Three-week duration
(mandatory)	
Induction program for	Physical activity
students to be offered right	• Creative Arts
at the start of thefirst year.	Universal Human Values
	• Literary
	Proficiency Modules
	• Lectures by Eminent People
	• Visits to local Areas
	Familiarization to Department/Branch&
	Innovations

#### Mandatory Visits/ Workshop/Expert Lectures:

- 1. It is mandatory to arrange one industrial visit every semester for the students of each branch.
- 2. It is mandatory to conduct a One-week workshop during the winter break after fifth semester on professional/ industry/ entrepreneurial orientation.
- 3. It is mandatory to organize at least one expert lecture per semester for each branch by inviting resource persons from domain specific industry.

#### For Summer Internship / Projects / Seminar etc.

1. Evaluation is based on work done, quality of report, performance in viva-voce, presentation etc.

After Year 1, Students are advised to take Social Responsibility & Community Engagement - encompassing Community Engagement with an NGO in the vacation time.

An UNDER GRADUATE CERTIFICATE IN COMPUTER APPLICATION will be awarded, if a student wishes to exit at the end of First year.

#### Exit Criteria after First Year of BCA Programme

Students will have the option to exit the Bachelor of Computer Application (BCA) program after successfully completing the first year. Upon exit, they will be awarded a **UG Certificate in Computer Application**. To be eligible for this certificate, students must complete an additional 04 credits in one of the following areas:

1. **Skill-Based Subject**: A course designed to enhance practical and technical skills in the field of computer applications.

#### Following courses should completed

1.Tally OR

- 2. **Internship/Apprenticeship**: A professional internship or apprenticeship program in a relevant field, with a minimum duration of 08 weeks, which will take place after the second semester. (as per Shivaji University On Job Training (OJT) Policy).
- 3. **Social Responsibility & Community Engagement**: Active engagement with an NGO or community organization for a minimum duration of 08 weeks, focusing on real-world problem-solving, social responsibility, and community service.

The mode and specifics of these additional credits will be determined by the **Shivaji University** and students will be required to complete the 08-weekprogram during the summer term following their second semester.

The exiting students will clear the subject / submit the Internship Report as per the University schedule.

#### Re-entry Criteria in to Second Year (Third Semester)

The student who takes an exit after one year with an award of certificate may be allowed to re-enter in to Third Semester for completion of the BCA Program as per the Shivaji University NEP Regulations after earning requisite credits in the First year.

Students can choose their specialization i.e. Stream with Discipline Specific Elective [DSE] from Second year onwards as indicated in Appendix -A

CEMECTED IV

#### Note:

- At the end of the Fourth Semester every student shall undergo Summer Training / Internship / Capstone for Eight Weeks in the industry/Research or Academic Institute. This component will be evaluated during the fifth semester.
- 2. An **UNDER GRADUATE DIPLOMA IN COMPUTER APPLICATION** will be awarded, if a student wishes to exit at the end of Second year.

#### **Exit Criteria after Second Year of BCA Programme**

Students will have the option to exit the Bachelor of Computer Application (BCA) program after successfully completing the second year. Upon exit, they will be awarded a **UG Diploma in Computer Application**. To be eligible for this diploma, students must complete an additional 04 credits in one of the following areas:

- 1. **Skill-Based Subject**: A specialized course aimed at enhancing technical and practical expertise in computer applications.
- 2. **Work-Based Vocational Course**: A vocational course offered during the summer term, focused on building practical, industry-relevant skills.
- 3. **Internship/Apprenticeship**: A professional internship or apprenticeship with a minimum duration of 08 weeks, conducted after the fourth semester, offering hands-on experience in a relevant field.
- 4. Social Responsibility & Community Engagement: Involvement with an NGO or

community-based organization for a minimum of 08 weeks, contributing to social initiatives and applying computer application knowledge to solve real-world challenges.

5. **Capstone Project**: Completion of a capstone project integrating the skills and knowledge gained during the first two years of the program, which can be an independent or group project.

The specific mode of completing the additional credits will be decided by the **Shivaji University** and students will be required to complete the 08-week program or project during the summer term following their fourth semester.

Students opting for this exit will also be required to **submit an Internship/Apprenticeship Report** or complete the Capstone Project as per the schedule outlined by the Shivaji University before they are awarded the UG Diploma.

#### <u>Re-entry Criteria in to Third Year (Fifth Semester)</u>

The student who takes an exit after second year with an award of Diploma may be allowed to reenter into fifth Semester for completion of the BCA Program as per the Shivaji University schedule after earning requisite credits in the Second year.

#### SEMESTER VI

1. BACHELOR IN COMPUTER APPLICATION Degree will be awarded, if a studentwishes to exit at the end of Third year.

#### Exit Criteria after Third Year of BCA Programme

The students shall have an option to exit after 3<sup>rd</sup> year of Computer Application Program and will be awarded with a Bachelor's in Computer Application.

#### Re-entry Criteria in to Fourth Year (Seventh Semester)

The student who takes an exit after third year with an award of BCA may be allowed to re-enter in to Seventh Semester for completion of the BCA (Honours) or BCA (Honours with Research) Program as per the Shivaji University schedule after earning requisite credits in the Third year. Minimum eligibility criteria for opting the course in the fourth year will be asfollows:

- 1. BCA (Honours with Research): BCA Degree
- 2. For BCA (Honours): BCA Degree

	Problems on Numbers: Extracting Digits of a Number (Left to Right and Right to Left), Palindrome, Prime Number, Prime Factors, Amicable Number, Perfect	11 Hours
	C Language : Introduction To Programming Languages, Different Generations of Programming Languages. Typed Vs Typeless Programming Languages, History of C Language ,An Empty C Program. C Language Counterparts For Input (scanf()), Output (printf()) Statements, Assignment, Arithmetic, Relational and Logical Operators. If, If-Else Statements, For, While, Do-While Statements. Data Types. Translating Pseudocode/Algorithm to C Program. Incremental Compilation and Testing of The C Program. Simple Problems Involving Input, Output, Assignment Statement, Selection and Repetition. Good Coding Practices.	
	Repetitions. Pseudocode and Flowcharts. Definition And Characteristics of Algorithms, Standard Algorithm Format. Problems Involving Iteration and Nesting: Displaying Different Patterns and Shapes Using Symbols and Numbers, Generating Arithmetic and Geometric Progression, Fibonacci and Other Sequences, Different Kinds of Data in The Real World and How They are Represented in The Computer Memory. Representation of Integers: Signed Magnitude Form, 1's Complement And 2's Complement. Representation of Real Numbers: IEEE 754 Floating Point Representation. Representation of Characters: ASCII, UNICODE.	
	Exit Controlled, Counter Controlled, Definite, Indefinite and Sentinel-Controlled	

#### UNIT-II

1. Converting degrees Celsius to Fahrenheit and vice versa?

2. Display three input numbers in sorted (non-decreasing) order?

- 3. Given a positive integer value n (>= 0) display number, square and cube of numbers from 1 to n in a tabular format?
- 4. Given an input positive integer number, display odd numbers from in therange[1,n]?
- 5. Display first mathematical tables, each table up to 10 rows? Generalise this todisplayfirst n (> 0) mathematical tables up to m (m > 0) rows?
- 6. Display following patterns of n rows (n > 0), For the below examples n = 5?Foreach pattern write a separate algorithm/program?

\$ \$\$	\$ \$\$	12345	12345	
\$\$ \$\$\$	\$\$ \$\$\$	1234	1234	
\$\$\$\$ \$\$\$\$	\$\$\$\$ \$\$\$\$\$	12 1	12 1	

7. Display the following patterns of n rows (n > 0), for the below examples n = 5?

Hollow square pattern:	Triangle Patterns with	Square with diagonals:					Diamond Pattern
#####	numbers:	*	*	*	*	*	*
# # # #	1 121	*	*		*	*	***
# # #####	12321 1234321	*		*		*	****
	123454321	*	*		*	*	***
		*	*	*	*	*	*

- 8. Given the first term (a), difference/multiplier (d) and number of terms (n > 0), display the first n terms of the arithmetic/geometric progression?
- 9. Display the first n (n > 0) terms of the fibonacci sequence?
- 10. Display the first n (n > 0) terms of the Tribonacci sequence?
- 11. Given two positive integer numbers n1 and n2 check if the numbers areconsecutive numbers of the fibonacci sequence?

#### UNIT-III

- 1. Extract digits of an integer number (left to right and right to left)?
- Given a sequence of digits form the number composed of the digits. Use sentinel controlled repetition to read the digits followed by -1. For example, forthe input 2 7 32 9 -1 the output number is 27329?
- 3. Check if a given positive integer number is a palindrome or not?
- 4. Compute character grade from the marks (0 ≤ marks ≤ 100) of a subject. Grading Scheme: 80-100 : A, 60 79: B, 50 59: C, 40-49: D, 0-39: F? Solve this using both else-if ladder and switch case?
- 5. Compute the sum of a sequence of numbers entered using sentinel controlled repetition?

- 6. Check if a given positive integer number is a prime number or not?
- 7. Compute prime factors of a positive integer number?
- 8. Check if two positive integer numbers are amicable numbers or not?
- 9. Check if a given positive integer number is a perfect number or not?
- 10. Check if a given positive integer number Armstrong number or not?
- 11. Converting a positive integer number (n > 0) from one base (inputBase) to another base (outputBase) (2 <= input Base, outputBase <= 10). Input number should be validated before converting to make sure the number uses only digits allowed in the input base?</p>
- 12. Write a program to display a number in text form. For example If the number is 5432the output should be "FIVE FOUR THREE TWO"?
- 13. Using the grading scheme described in the question 4 (UNIT III), Compute how many students awarded each grade and display the frequency as a bar chart (horizontal) using single "\*" for each student. Use sentinel controlled repetition (-1 as sentinel value) in reading the students marks. Use else-if ladder/switch case to compute the grade and the corresponding frequency.

Sample bar chart when the class has 7-A, 10-B, 3-C, 7-D and 1-F grades.

```
A:
*******
B:
*********
C: ***
D:
*******
F: *
```

- 14. Compute maximum, minimum, sum and average of a sequence of numbers which areread using sentinel controlled repetition using only few variables?
- 15. Compute body mass index, BMI = weightinKGs / (HeightinMeters \*HeightinMeters), Both weight and height values are positive real numbers. Your program should display BMI value followed by whether the person is Underweight, Normal, Overweight or Obese using the below ranges:

BMI Values Underweight: less than 18.5Normal: >=18.5 and <25 Overweight: >=25 and < 30 Obese: >= 30

#### UNIT IV

- 1. Design a modularized algorithm/program to compute a maximum of 8 numbers?
- 2. Design a modular algorithm/program which reads an array of n integer elements andoutputs mean (average), range (max-min) and mode (most frequent elements)?
- 3. Design a modular algorithm/program which reads an array of n integer elements andoutputs median?
- 4. Implement your own string length and string reversal functions?
- 5. Design algorithm/program to perform matrix operations addition, subtractionand transpose?

6. Write a recursive program to count the number of digits of a positive integer number?

# Suggestive Laboratory Experiments:

- 1. Verify logic behavior of AND, OR, NAND, NOR, EX-OR, EX-NOR, Invert and Buffergates.
- 2. To study and verify NAND as a Universal Gate
- 3. To Convert Binary to Grey Code
- 4. Design and verify operation of half adder and full adder.
- 5. Design and verify operation of half subtractor.

#### Hardware

- 1. Familiarize the computer system layout: marking positions of SMPS, motherboard, FDD, HDD, CD, DVD and add on cards.
- 2. Identify the Computer Name and Hardware Specification (RAM capacity, Processor type, HDD, 32 bit/ 64 bit)
- 3. Configure BIOS settings- disable and enable USB and LAN
- 4. Adding additional RAM to the system.(expanding RAM size).
- 5. Install and configure windows OS
- 6. To study the installation of Printer and trouble shooting.

	GENERAL ENGLISH
	AEC102
	General English subject aims to improve basics of English language. It illustrates the
	minutiae of the English language and its various applications in our daily lives. It covers
Course	study about Vocabulary Building, Basic Writing Skills, Identifying Common Errors in
Description	Writing, Nature and Style of sensible Writing, Oral Communication. Students gain a solid
	understanding of English grammar concepts and related aspects by studying the English
	language.
	1. To provide learning environment to practice listening, speaking, reading and writing
	skills.
	2. To assist the students to carry on the tasks and activities through guided instructions
Course	and materials.
Objectives	3. To effectively integrate English language learning with employability skills and
	training.
	4. To provide hands-on experience through case-studies, mini-projects, group and
	individual presentations.

	After completion of course, students will be able to :								
	1.Expl	1. Explain concept of Word Formation in English Language.							
Course	2. Illust	rate use of phrase	s and clause	es in sentence	es in English Languag	e.			
Outcomes	3. Iden	tify common erro	rs in Englisl	h Writing.					
	4. Dev	4. Develop reading and listening, writing and speaking skills.

Note: Unit_	III and IV should be interactive practice sessions preferably in Language Lab			
Suggested I	Field Work or Practical Work			
1. Exercises on Word Formation by the Addition of Prefixes and suffixes.				
2. Word formation by conversion, compounding. Exercises on synonyms, antonyms.				
3. Exercises	on sentence structure; Phases and clauses.			
4. Exercises on identifying common errors : Choosing the correct verb; Exercises on noun –pronoun				
exercise.				

5. Exercises on modifiers ; articles , prepositions ,redundancies ; word stress , intonation

6. Exercises on writing short paragraph on given topic ; Exercise on comprehension writing.

7. Exercises on short precise writing on given topic ; short essay writing on given topic or topic of student's choice.

8. Exercise on listening and rewriting short comprehension; Exercises- group communication on given topics

BCA-I-Sem-I(NEP 2.0)										
INDIAN VISION FOR HUMAN SOCIETY										
MDE101										
Course Description	This course wi fundamental to human society existence. It he	course will provide an overview of concept of 'Vasundhaiva Kutumbam'. It is a mental to know its realization process as a base for the development of vision for a n society. It helps to understand universality in human and its coexistence in nce. It helps to understand ancient knowledge system for holistic development.								
Course Description	<ol> <li>Understand the concept of Vasudhaiv Kutumbakam and about its realization for the development of vision for a human society.</li> <li>Discuss the universality in humans and its co-existence in existence.</li> <li>Classify different stages of life and its development</li> <li>Illustrate a sense of responsibly, duties and participation of individual for establishment of fearless society.</li> <li>Investigate programs for ensuring human purpose at individual and societal level.</li> </ol>									
Course Outcomes	<ul> <li>After completion of course, students will be able to:</li> <li>1. Explain the concept of "Vasudhaiva Kutumbkam" and its realization process as an base for the development of vision for a human society.</li> <li>2. Identify the universality in humans and its coexistence in existence.</li> <li>3. Demonstrate the sense of responsibility, duties, and participation of individual for establishment of fearless society.</li> <li>4. Explain the apparently rational, verifiable and universal solution from ancient Indian knowledge system for the holistic development of physical, mental and spiritual wellbeing of one and all, at the level of individual, society, nation and ultimately the whole world.</li> </ul>

	BCA-I-Sem-I(NEP 2.0)
	ENVIRONMENTAL SCIENCE AND SUSTAINABILITY
	VAC101
	This course aims to familiarize students with fundamental environmental concepts and
	their relevance to business operations, preparing them to address forthcoming
	sustainability challenges. It is designed to equip students with the knowledge and skills
	needed to make decisions that account for environmental consequences, fostering
	environmentally sensitive and responsible future managers.
	The course content is divided into four comprehensive units. Unit 1 introduces basic
Course	environmental principles, the man-environment relationship, and sustainability issues.
Description	Unit 2 focuses on ecosystems, biodiversity, and sustainable practices. Unit 3 addresses
	environmental pollution, waste management, and sustainable development strategies.
	Finally, Unit 4 explores social issues, environmental legislation, and practical
	applications through hands-on fieldwork. Through this holistic approach, students will
	gain a deep understanding of environmental processes, the importance of sustainable
	practices, and their role in promoting sustainability within business contexts.

	1. To familiarize students with basic environmental concepts, their relevance to business
Course	operations, and forthcoming sustainability challenges.
Objectives	2. To equip students to make decisions that consider environmental consequences.
	3. To become environmentally sensitive and responsible managers.
	After completion of course, students will be able to :
	1. Explore the basic environmental concepts and issues relevant to the business and
	management field.
	2. Recognize the interdependence between environmental processes and socioeconomic
	dynamics.
Course	3. Determine the role of business decisions, policies, and actions in minimizing
Outcomes	environmental degradation.
	4. Identify possible solutions to curb environmental problems caused by managerial
	actions.
	5. Develop skills to address immediate environmental concerns through changes in
	business operations, policies, and decisions.

# Practical

## Lab Programs for Data Structure

- 1. Write a program for string manipulation operations in an array.
- 2. Write a program to search for an element in an array using Linear and Binary Search.
- 3. Write a program to sort an array using Bubble Sort, Selection Sort, Insertion Sort, merge sort
- 4. Write a program to add, subtract and multiply two matrices.
- 5. Write a program to perform different operations on Singly Linked List.
- 6. Write a program to perform different operations on Doubly Linked List.
- 7. Write a program to perform different operations on Circular Linked List.
- 8. Write a program to implement stack operations using an array & linked list.
- 9. Write a program to evaluate an expression in another form using a stack.
- 10. Write a program to perform the following using recursion:
  - (a) Find the factorial of a number
  - (b) Find the GCD of two numbers
  - (c) Solve Towers of Hanoi problem
- 11. Write a program to implement simple queue operations using an array & linked list.
- 12. Write a program to implement circular queue operations using an array & linked list.
- 13. Write a program to add two polynomials using a linked list.

- 14. Write a program to perform the following operations on a binary search tree.(a) Preorder Traversal (b) Inorder Traversal (c)Postorder Traversal
- 15. Write a program to perform insertion operation in a binary search tree.

#### Lab Programs for Operating Systems

- 1. Write C program to simulate the FCFS CPU Scheduling algorithm.
- 2. Write C program to simulate the SJF CPU Scheduling algorithm.
- 3. Write C program to simulate the Round Robin CPU Scheduling algorithm.
- 4. Write a C program to simulate Bankers Algorithm for Deadlock Avoidance.
- 5. Write a C program to implement the Producer Consumer problem using semaphores.
- 6. Write a C program to illustrate the IPC mechanism using Pipes.
- 7. Write a C program to illustrate the IPC mechanism using FIFOs.
- 8. Write a C program to simulate Paging memory management technique.
- 9. Write a C program to simulate Segmentation memory management technique.
- 10. Write a C program to simulate the Best Fit contiguous memory allocation technique.
- 11. Write a C program to simulate the First Fit contiguous memory allocation technique.
- 12. Write a C program to simulate the concept of Dining-Philosophers problem.
- 13. Write a C program to simulate the MVT algorithm.
- 14. Write a C program to implement FIFO page replacement technique.
- 15. Write a C program to write a C program for implementing sequential file allocation method.

#### Note: Student should certify & enclose minimum 10 programs from data structure & 10 programs from Operating System in main journal

	BCA-I-Sem-II(NEP 2.0) OPERATING SYSTEMS						
		Ū	CC1	05			
Course Outcom	CC105         Course Outcomes       At the end of the course, students will be able to:         C01: Explain the fundamentals of the operating system.         C02: Comprehend multithreaded programming, CPU scheduling, process management, process synchronization, memory, deadlocks, and storage management.         C03: Compare the performance of CPU scheduling algorithms CO4: Identify the fortunes of L/O and File bendling methods.

	5. <u>https://oninfecourses.nptot.uc.nl/httpl//fortew</u>									
	List of Practical:									

- 1. Write a program to read two numbers from user and print their product.
- 2. Write a program to print the square of a number passed through commandline arguments.
- 3. Write a program to send the name and surname of a student through command line arguments and print a welcome message for the student.
- 4. Write a java program to find the largest number out of n natural numbers.

- 5. Write a java program to find the Fibonacci series & Factorial of a numberusing recursive and nonrecursive functions.
- 6. Write a java program to multiply two given matrices.
- 7. Write a Java program for sorting a given list of names in ascending order.
- 8. Write a Java program that checks whether a given string is a palindrome ornot . Ex:MADAM is apalindrome.
- 9. Write a java program to read n number of values in an array and display it inreverse order.
- 10. Write a Java program to perform mathematical operations. Create a class called AddSub with methods to add and subtract. Create another class calledMulDiv that extends from AddSub class to use the member data of the superclass. MulDiv should have methods to multiply and divide A main function should access the methods and perform the mathematical operations.
- 11. Create a JAVA class called Student with the following details as variables within it.
  - a. USN, NAME, BRANCH, PHONE, PERCENTAGE
  - b. Write a JAVA program to create n Student objects and print the USN,Name, Branch, Phone, and percentage of these objects with suitable headings.
- 12. Write a Java program that displays the number of characters, lines and wordsin a text.
- 13. Write a Java program to create a class called Shape with methods called getPerimeter() and getArea(). Create a subclass called Circle that overrides the getPerimeter() and getArea() methods to calculate the area and perimeterof a circle.
- 14. Write a Java program to create a class Employee with a method called calculateSalary(). Create two subclasses Manager and Programmer. In eachsubclass, override the calculateSalary() method to calculate and return the salary based on their specific roles.
- 15. Write a Java program using an interface called 'Bank' having function 'rate\_of\_interest()'. Implement this interface to create two separate bank classes 'SBI' and 'PNB' to print different rates of interest. Include additionalmember variables, constructors also in classes 'SBI' and 'PNB'.
- 16. Write a Java package program for the class book and then import the datafrom the package and display the result.
- 17. Write a Java program for finding the cube of a number using a package for various data types and then import it in another class and display the results.
- 18. Write a Java program for demonstrating the divide by zero exceptionhandling.
- 19. Write a Java program that reads a list of integers from the user and throws an exception if any numbers are duplicates.
- 20. Create an exception subclass UnderAge, which prints "Under Age" along with the age value when an object of UnderAge class is printed in the catch statement. Write a class exceptionDemo in which the method test() throws UnderAge exception if the variable age passed to it as argument is less than 18. Write main() method also to show working of the program.

in the left fra	me, ir	nformation shou	ld be displ	ayed in rigl	nt frame.				

5) Create web page for student admission form using different form elements in HTML.

6) Create a Web Page of a super market using internal CSS.

7) Use Inline CSS to format your resume created through HTML tags.

8) Use External CSS to format your time table created.

9) Use all the CSS (inline, internal and external) to format college web page that you have created.

10) Write a HTML Program to create your college website for mobile device using CSS.

#### PART – B (Programs based on Unit-II)

1) Write a JavaScript program using Switch case.

2) Write a JavaScript program using any 5 events.

3) Write a JavaScript program using built in JavaScript objects.

4) Develop a Simple calculator for addiction, subtraction, multiplication and division operations using JavaScript.

5) Create HTML form for Student Information like Register Number, Name, Mobile Number, DOB and Email-Id with validations using JavaScript. (Use required field validator and length validator)

6) Write an HTML program to create login page with validations using JavaScript. (Use Regular Expressions for validations)

7) Create a DTD for Newspaper article.

8) Create XML schema for Student Information.

9) Create XSL file to convert XML file to XHTML file

10) Write a Program to retrieve date from a text file and displaying it using AJAX.

# BCA-I-Sem-II (NEP 2.0) INDIAN CONSTITUTION VAC201

	This course offers a unique perspective on the Constitution of India, focusing on its						
	economic dimensions and impact on business. It delves into the historical and ideological						
	underpinnings of the Constitution as an economic document, tracing its evolution from						
	post-colonial economic governance to contemporary debates. Students explore						
	constitutional battles over land reforms, economic liberalization, and fiscal federalism,						
Course	gaining insights into competing economic ideologies and interests. Through case studies						
Description	and legal analysis, they examine fundamental rights related to business, fiscal federalism,						
	and constitutional issues shaping India's economic landscape.						
	By the end of the course, students will develop a nuanced understanding of the						
	Constitution's role in shaping economic policies and its implications for business practices,						
	equipping them with valuable insights for careers in business management and policy						
	advocacy.						
	1. Develop an understanding of the Indian Constitution beyond legal and political lenses,						
	emphasizing its significance for business students.						
	2. Recognize the importance of comprehending constitutional basics and their impact on						
	trade, economy, and business practices.						
	3. Analyze the inclusion of economic justice in the preamble and its implications for						
~	post-colonial economic policies.						
Course	4. Explore the legal history of competing claims between economic development and						
Objectives	principles of equity and justice in India.						
	5. Examine the transition from state-led industrialization to liberalization, highlighting						
	the constitutional underpinnings of these economic shifts.						
	6. Investigate the constitutional provisions relevant to business, such as the fundamental						
	right to practice any profession, occupation, trade, or business as enshrined in Article						
	19.						

	After completi	After completion of course, students will be able to :						
	1. Explain con	1. Explain concept of the Indian Constitution, particularly from the perspective of						
	economic governance and business							
Course	2. Employ a nuanced analytical framework about ongoing constitutional debates and							
Outcome	battles which affect the domain of business							
	3. Develop a sense of how questions of economic growth have to be balanced with other							
	constitutional commitments, including social and economic justice.							
Total Ho	ours of Teaching	Lecture	Tutorial	Practical	Total Per Week	Credi	t Points

	important economic moments in the constitutional history of post-colonial India;							
	Constitutional design, Legal Regulation and economic justice							
	Fundamental Rights and Business in India							
	Article 19(1)(g) grants every citizen the right, to practise any profession, or to carry							
	on any profession, occupation, trade, or business. Like other fundamental rights,							
Unit: II	this right is subject to reasonable restrictions impose by the state. This particular						8 Hours	
	provision of the Constitution has been one of the most severely litigated freedoms.							
	Fundamental Duties.							
	Fiscal Federalism							
	Article articles 301 to 307 of the Constitution pertains to Trade, Commerce and							
Unit. III	Intercourse within the Territory of India; Challenges associated with fiscal							
	federalism in India including the vertical fiscal imbalance; Article 280 of the						/ 110015	
	Constitution.							

	Constitutional battles that shaped the economy	
Unit: IV	This module will be taught through key case studies that demonstrate the complex	
	and fascinating overlap between the constitution and business and shall use	
	Saurabh Kirpal's book Fifteen Judgments: Cases that Shaped India's Financial	
	Landscape as our guide through this landscape. The case studies include the	
	banning of diesel engine cars, Telecom regulation and ownership of broadcast	
	media, Demonetisation, Aadhaar, the lifting of restrictions on dealing in	
	cryptocurrencies.	
		1

Note: Relevant case studies based on the above units should be discussed in the class.

#### Suggested Field Work or Practical Work

1. Study and analyse case-Rustom Cavasjee Cooper v. Union of India, (1970) 1 SCC 248

2. Study and analyse case- State of Rajasthan v. Mohan Lal Vyas, AIR 1971 SC 2068 (confirmation of a private monopoly, not a violation of fundamental right)

3. Study and analyse case -Mithilesh Garg v. Union of India, (1992) 1 SCC 168 : AIR 1992 SC 221 (Right to carry on business, not breached when it is liberalised)

4. Study and analyse case -Chintamanrao v. The State of Madhya Pradesh, AIR 1951 SC 118 (scope of reasonable restrictions in relation to trade and occupation)

5. Study and analyse case -Cooverjee B. Bharucha v. Excise Commissioner, Ajmer, AIR 1954 SC 220 (the reasonableness of the restriction imposed may depend upon the nature of the business and prevailing conditions including public health and morality)

6. Study and analyse case- T. B. Ibrahim v. Regional Transport Authority. Tanjore, AIR 1953 SC 79

7. Study and analyse case- Harman Singh v. RTA, Calcutta, AIR 1954 SC 190

8.. Study and analyse case- Dwarka Prasad Laxmi Narain v. State of U.P., AIR 1954 SC 224

9. Study and analyse case- State of Bombay v. R.M.D. Chamarbaugwala, AIR 1957 SC 699

1. Study and Analyse case-Parbhani Transport Coop. Society Ltd. v. Regional Transport Authority, Aurangabad, AIR 1960 SC 801

#### Note:

Each student should prepare report any 5 practical or field work including detailed information as per guidelines and structure/format given by subject teacher. The report should be hand-written. Take photographs in your cell phone with prior permission during the visit to business units and discussion with people. Produce the black and white print of photographs in your report.
