ABOUT THE SEMINAR

The concept of Social development is about improving the well-being of every individual in society so they can reach their full potential. The success of society is linked to the well-being of each and every citizen. Social development is generally understood to comprise of a set of objectives including equity and social justice, which subsume additional objectives including social inclusion, sustainable livelihoods, gender equity, increased voice and participation. Social development means investing in people. It requires the removal of barriers so that all citizens can journey toward their dreams with confidence and dignity. It is about refusing to accept that people who live in poverty will always be poor. It is about helping people so they can move forward on their path to self-sufficiency.

Psychology is an important subject in field of social science. In modern society the development of social and humanities subjects are highly increasing. Therefore it is important to make discourse among the society about the effectiveness of social science and related fields. To identify the Socio-Psychological factor which leads to social development is main objective of this seminar. The development and the pattern of human mind and the behavior are study on social psychology and it is mostly influenced by the social development. social interaction, social interrelationship, social influence, social attitudes, social perspective, pro-social behaviors directly influence the social development. Psychologists can help people learn to cope with stressful situations, overcome addictions, manage their chronic illness or tell more about the way of person thinks, feels and behaviors etc. Keeping these views in the mind, our institution is organizing this seminar. We look forward to welcome you at the event.
