### 03. FROM THE PRINCIPAL'S DESK

**Prin. Dr. M. M. Rajmane** M.Sc., Ph.D.

It gives me immense pleasure to welcome all the aspirants to the Rayat Shikshan Sanstha's S.G.M. College, Karad for the new academic year.

The mission of the college is to impart value based quality education to young generation of India. The college runs different academic programmes. The slogan of the college is **'Be and Bear, Do and Dare'**. The college provides facilities for the education of the poor and needy students through 'Earn and Learn' scheme. It is seen that no one is deprived of education on account of poverty. Our complete focus is to shape our students in such a way that they can hold an elegant position in their personal and social life. The students must be equipped with the skills required to face the challenges in future as John Dewey said, **"Education is not preparation of life but education is life itself."**

The college has grown in terms of student strength, courses, extra curricular activities, supporting facilities etc. The college was awarded 'A+' grade (CGPA 3.63) by NAAC in the third cycle of accreditation. The college has been conferred an Empowered Autonomous status from June 2024 by UGC. Under autonomy some changes were made in the existing syllabi which are in tune with local, industrial and social needs.

We want that our students should become multi dimensional rather than unidimensional. Our Management, Teaching & Non-Teaching staff remember that, **"Success comes to those who work hard and stays with those who don't rest on the laurels of the past".**

My best wishes to all students of the college.

#### 05. BENEFITS OF AUTONOMY :

University Grants Commission motivates the colleges with 'A+' Grade by NAAC to opt for autonomy. The autonomous status is received on the basis of academic reputation, performance of the college in university examinations, curricular, co-curricular, extension activities, achievements of the faculty, quality and merit of students and teachers, adequacy of infrastructure, institutional management, financial resources and involvement of faculty in innovative reforms.

Autonomy improves the quality of higher education by offering the academic freedom to the affiliated colleges. The university with its common system and uniform rules and regulations for all the affiliating colleges makes it difficult to meet the varied needs of all the colleges. The blended (Hybrid) learning mode is adapted by college. To meet the excellence in the higher education systems it needs to offer academic flexibility to colleges in order to cope up with the local conditions.

The autonomous college has its own Governing Body, Academic Council, Board of Studies and Finance Committee along with the other statutory and academic committees.

#### Benefits to Faculty and Students :

## **07. NATIONAL EDUCATION POLICY :**

Highlighting the importance of flexible learning, National Education Policy 2020 states that imaginative and flexible curricular structures will enable creative combinations of disciplines for study and would offer multiple entry and multiple exit (MEME) options and thus, remove the currently prevalent rigid boundaries. These would create new opportunities for students to choose and learn the subject/s of their choice. While changing the HEI as per their preference, convenience or necessity. In order to pave the way for seamless student mobility, the NEP 2020 envisages adjustments in the structures and lengths of degree programmes. Academic Bank of Credits (ABC) ensures seamless student mobility between or within degree-granting HEIs through a formal system of credit recognition, credit accumulation, credit transfers, and credit redemption to promote distributed and flexible teaching-learning. To take this forward, NEP 2020 promotes rigorous research-based specializations and opportunities for multi disciplinary education, at the Graduate, Master's and Doctoral level programmes in HEIs.

To reach to the design of holistic and multi disciplinary programmes as anticipated in NEP 2020, HEIs require some time to streamline it in higher education in India. As stated above, as per their university's/college's preference, convenience or necessity, ideal multi disciplinary programmes may come into existence in future. However, existing undergraduate programmes may be converted into a new framework having multiple entry and multiple exit options and with additions of Skill Enhancement Courses in credit system. The continuous comprehensive evaluation is also a requirement for proper mapping of learning outcomes, course outcomes and programme outcomes as our system is based on principles of outcome based education. Hence, the university will continue its choice based credit system for quality-based evaluation programmes.

In the light of NEP 2020, HEI can provide the courses as per tune preference, convenience or necessity for the students.
