### **Report**

Institute's innovation Council organized a lecture series on 'Inventions and Innovations in Basic Sciences. Objective behind organizing such lecture series was to convey the current research trends and Innovations in the subjects such as Chemistry, Physics, Life Sciences to students. The motto behind this lecture series was to motivate students to take part in research and submit their innovative ideas to Invention Innovation and Incubation cell of the college.

Representative faculty of department such as Physics, Chemistry, Botany, Electronics, biotechnology delivered the lectures to students and guided them towards the recent innovations in their respective subjects. Response from students was overwhelming. Students submitted their ideas to the cell online.
