Teaching, Learning and Evaluation

2.3.2 ICT enabled tools for effective teaching and learning

ICT Enabled Teaching

(Power point presentation (PPT), Use of Smart board, Whatsapp, Face book, email, Telegram, Video Conferencing, YouTube videos etc.)

Year 2022-23

Rayat Shikshan Sanstha, Satara
Sadguru Gadage Maharaj College, Karad
(An Autonomous College)
Department of Chemistry
ICT Enabled Teaching Methods
(Year 2022-23)

Different ICT enabled teaching methodologies imparted are-

1. Power point presentation (PPT)
2. Use of Smart board
3. Whatsapp, Face book, email, Telegram etc.
4. Video Conferencing
5. You Tube Videos

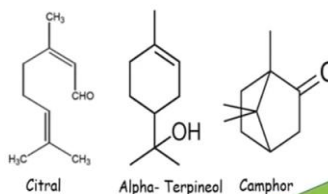

ICT TOOL: PPT

Use of ICT Report

L. C. D projector facility is available in the Department of Psychology, sometimes relevant subject teachers do teaching work through PPT. Internet connectivity is also available in the Department of Psychology. The subject teacher conveys the relevant topics and links of the related subject to the students like e-contents or e-resources through WhatsApp group. It is useful in the study for students. Online lectures of students are taken through Zoom Link and online test was conducted for the students of Psychology Department.

(b) **Municipal Value** : For determining the municipal taxes, the local authority makes periodical survey of all buildings in its jurisdiction. Such valuation (called municipal value or annual ratable value) is taken into consideration in determining the annual value.

(c) **Fair Rental Value** : Fair rent means the rent that property might reasonably be expected to fetch from year to year depending upon the locality, the rent of similar properties in nearby area. Fair rental value is relevant in arriving at annual value.

(d) **Standard Rent** : It is the fair rent of the property determined under the Rent Control Act. The landlord cannot reasonably expect to receive from a tenant anything more than standard rent. If the property is covered under Rent Control Act, its annual value cannot exceed standard rent fixed under the Act. But if the actual rent received / receivable is more than the sum for which the property might reasonably be expected to let from year to year, actual rent will be taken as annual value in case of let out property.

09:04

Annual Value [Sec. 23]

The income from house property is charged to income-tax on the basis of the annual value of that property. 'Annual Value' is the sum for which the property is reasonably expected to be let out from year to year. Thus, annual value is a notional figure. It is determined on due consideration of factors like rent payable by tenant, location of the property, annual ratable value of the property fixed by municipalities, rents of similar properties in the similar locality. In general, the gross annual value of the house property is determined by taking into consideration the following four factors :

- (a) Actual rental value (b) Municipal value (c) Fair rent of the property (d) Standard rent (if Rent Control Act is applicable.)

(a) **Actual Rental Value** : It refers to the actual sum for which property is let out. It is considered in determining annual value of the property. Moreover, if the tenant has undertaken any liability of the owner besides paying rent, or if the owner has undertaken any obligation of the tenant, rent of the property is to be taken as annual value.

(Autonomous)
DEPARTMENT OF BOTANY & PLANT PROTECTION
ACTIVITY REPORT 2022-23

Title of Activity: - ICT Enabled Tools

Description of Activity: -

Department of Botany and Plant Protection uses the ICT tools for better improvement and understanding in the classroom. All the faculties of the department were using the ICT tools. It includes E-resources and techniques like Google classroom, Power Point (PPT), LCD Projector, Smart Class Room, Interactive Video Tutorial, E-books, E-Journal, WhatsApp, PPT Slides, Practical Oriented, YouTube etc. The main objectives of using ICT tools in the classroom is to improve the students' understanding level, attract attention and interest and active participation of the students. Use of ICT tools reduces the students' irregularity or low attendance. The faculties of department aim to motivate the students and arouse curiosity to learn. Teachers create a collaborative and friendly environment in the classroom to interact and exchange information with one another. The departments of Botany and Plant Protection using ICT tools has in fact reduced the barriers of time and place because it has become easier to communicate and interact with students through Google classroom, WhatsApp, etc.

Head
Department of Botany

Rayat Shikshan Sanstha's
Sadguru Gadage Maharaj College, Karad
(An Autonomous College)
Department of Botany and Plant Protection
Activity Report 2022-23

.....

1. Title of Activity: Use of ICT - Smart board for teaching

2. Day/ Date: Saturday/ 06/05/2023

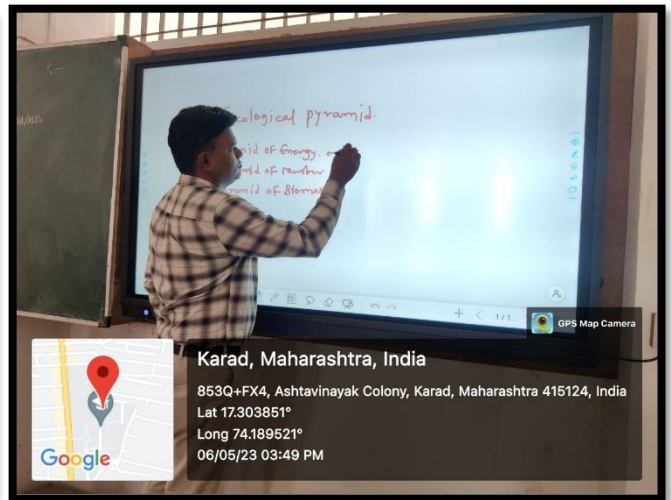

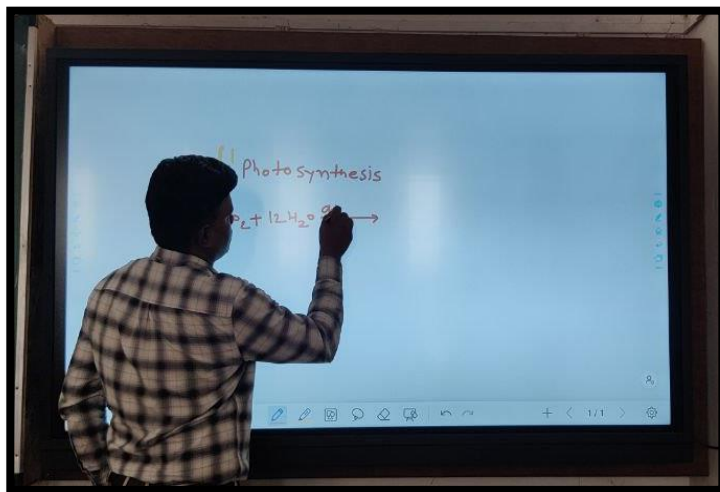

3. Venue: Lecture Hall (D2 -3)

4. Description of activity:

Dr. Kamlakar Patil has organized the lecture for the B. Sc. II students in subject botany on the topic photosynthesis. The presentation will cover the topics of transpiration, photosynthesis, cellular respiration, and the link between light and photosynthesis. By use of smart board technology students were able to learn the photosynthesis with including how actual live reaction takes place in plant. The smart board is very effective tool for students to understand the tough topics.

Outcome of activity: Effectively students were able to learn the Botany by addition of technology.

Number of students participated: 40

5. No. of beneficiaries: Student: 40, Faculty: 01

.....

1. Title of Activity: Use of ICT – Power Point Presentation Method

2. Day/ Date: 23/01/2023 to 03/04/2023

3. Venue: Lecture Hall:- B.Sc. I, B.Sc. II and B.Sc. III

4. Description of activity:

The various teaching learning methods are effective for the students. One of the important teaching learning method is Power Point Presentation method which is used for B.Sc.I and B.Sc.III students by the department of Botany and Plant Protection. Total eleven lectures using Power Point Presentation are done on the class of B.Sc.I and B.Sc.III. This method is utilized for paper no. III and paper no. XV. Many students got benefited by this method.

Outcome of activity: Effectively students were able to learn the Botany by addition of technology.

1. **Title of Activity: Seminar**
2. **Day/ Date:** Saturday/ 04/03/2023
3. **Venue:** Department of Botany & Plant Protection
4. **Description of activity:**

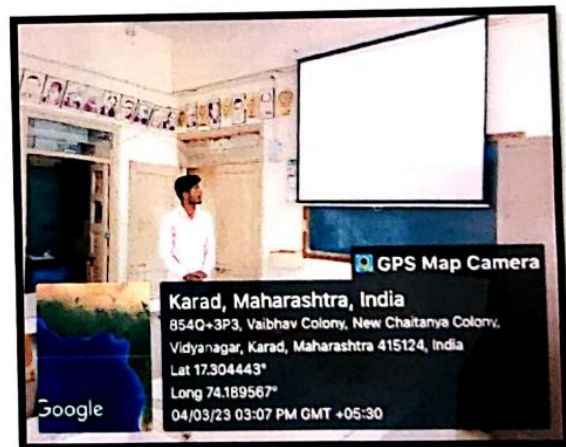

Department of Botany & Plant Protection had organized the seminar of B. Sc. III students on the topics they are studying in their syllabus. B.Sc. III year students along with faculty Ms.R.D. Namdas, Dr. M. S. Patil, Dr.A.V.Waghmode and Dr. Vijaya Nikam were participated in the programme. The seminar was arranged with the aim of encouraging students to learn more about the subject and develop their skills.

All students gave their best performance and also judged by the faculty. Overall, the seminar presentation was good and provide numerous benefits to students and help them to develop important skills like communication skill, self-confidence and increase more interest about the subject.

Outcome of activity: Arranged seminar activity encourages the students to speak up and boost their confidence.

Number of students participated: 18

5. **No. of beneficiaries:** Student: 18, Faculty: 04
