ACTIVITY REPORT 2022-23

1. Title of Activity: - Mushroom Cultivation Training Program

2. Date: - 02/02/2023 Venue: - Department of Botany

3. Description of Activity:-

Skill development is important because skills determine the ability to execute the plans with success. Skill training not only provides skills in a particular area, but trains them to build and enhance networking, time management, etc. The programme Skill development of Mushroom cultivation for UG students is a golden opportunity for the youth to establish their agriculture allied small scale business. They were provided with experts of mushroom cultivation and were given an opportunity to perform the practical, moreover they were given mushroom blocks so that they can witness the growth and appearances of oyster mushroom, they can research their own blocks which may give them interests and ideas on the cultivation.

There is a demand for technology at grass root level to enable people to break away from the poverty trap and to acquire a sense of livelihood. Training is generally been considered the outlet for an exchange of concepts within a community. Therefore, the proposed training can help to develop skills that can be useful for their livelihood.

In the morning session guest lecture on cultivation technique was delivered by Prof. Nitin Patil, Agriculture College, Rethare. Afternoon session was the actual hands on training for mushroom cultivation. Dr. Sunita Jadhav, Krishna College, Rethare was the resource person for the training.

4. Outcome of Activity:- Students are trained for the development of their own agriculture allied small scale business.

5. No. of Students present/ No. of beneficiaries:- 60 students from B.Sc. Botany and B. Voc. Agriculture were participated in the training program.
