Study Tour Report 2022-23

Class - B.Sc I (Zoology)

Subject - Zoology

No. of students Participated - 45

Place of Visit

- 1. Sericulture Institute Wai,
2. Mapro Garden, Pachagani
3. Biodiversity Park, Mahableshwar.
4. Old Mahableshwar

Date & Duration- 25th February 2023.

Route of Tour -

Karad→Wai→Pachagani→Mahableshwar→Medha→Karad

Mode of Travel- S.T.

Organizing Department - Department of Zoology

Tour Incharge - Dr. Khairmode.P. V.

Other Staff -Dr.V.K.Nikam,Mr.R.A.Babar, Dr.S.

Aims & Objectives -

- To hands-on experience that solidifies learning.
- To study classification and the naming of organism
- To enhancing the student experience of laboratory practicals
- To create interest in the subject Zoology.

Conclusion-

The study tour was helpful for the students and staff for enhancing knowledge about biodiversity. Biodiversity is the variability among living organisms including terrestrial, marine and aquatic ecosystems and the ecological complexes. This includes diversity within species, between species and of ecosystem. It forms the foundation of the vast array of ecosystem services that critically contribute to all human beings. Biodiversity is important in human managed as well as natural ecosystems.

It is the foundation of ecosystem services to which mankind is intimately linked. It was a great source of motivation for the students to attend the virtual tour and learn about the degradation and revival of a degraded ecosystem. They were sensitized towards nature appreciation and conservation. The nature walk through the park has encouraged qualities of leadership, exploration and nature observation among the students.
